Our Children
**ZACH AND
AUBREY**

We met freshman year of college when we lived in the same dorm at the University of Delaware, an instant connection. We dated in college and then more seriously after college when we both accepted jobs in Wilmington, Delaware after graduation. We have biological twins, Aubrey and Zachary, who just turned 4, and who would love to become a big sister and brother! Becoming parents wasn't easy for us and after experiencing some complications after the birth of the twins, we found our way to adoption. Adoption has always been something we have thought about and we have spent the last year learning all we can about the process. Our children are the center of our world and we would be so blessed and grateful to welcome another child into our family.

WE ARE VERY
EXCITED TO START
THIS JOURNEY
WITH YOU AND
GROW OUR FAMILY!

Our Story

WE MAKE A GREAT TEAM!

We live in the suburbs of Philadelphia, Pennsylvania—a great family community within two hours from many adventures including the beach, mountains, New York City and Washington, D.C. We are blessed with a strong supportive village of family and friends, both near and far, who all play a positive role in our children's lives and would welcome another child into our family with endless happiness and unconditional love.

WE HAVE ALWAYS DREAMED OF A BIG FAMILY AND HAVE SO MUCH LOVE TO GIVE!

Our dreams are to nurture and encourage our children to be the best they can be in order to achieve their dreams, whatever they may be.

Thank you for reading our profile and taking a glimpse into our world. We would be forever grateful to welcome your child into our loving family.

I've loved her smile, strength and warmth since the day I met her, almost 18 years ago, and couldn't imagine any better partner in life. Sara loves sushi, travel and time with family and friends, wherever that may be. She loves to have fun and celebrate all things big and small-- all holidays and all milestones! I admire that she is an advocate for our children in all that they do. She's a fantastic and dedicated mother, all while continuing to be recognized as talent in her corporate communications job for a pharmaceutical company. **She has found a perfect balance and is a role model of empathy, strength and success for the children and me.**

WALTER ON THE BEACH

No matter what is going on, he's there—proudly coordinating homemade Halloween costumes, waking up with a sick child in the night, playground trips, frog catching or getting manicures at our home beauty salon. He's always up for adventure—exploring, vacationing, cooking and trying new foods and experiences. He's committed to daily exercise and has a constant appetite to learn more. What I love about him most is his generosity and commitment to helping others, whether it's volunteering, regularly donating blood or helping a friend or employee in need. **He's a fantastic role model for our children and every single day I am so thankful for our love and the amazing life we've built together.**

 WE LIVE IN THE SUBURBS OF
PHILADELPHIA IN A QUIET
NEIGHBORHOOD CLOSE TO MANY PARKS,
PLAYGROUNDS AND HIKING TRAILS.

Our community is diverse and a top school district in the state. We have a giant playroom and our home is entirely kid friendly. If we had to describe it in a few words, it would be warm and loving. On weekend mornings, we often take a long walk to visit a nearby horse farm. We have over an acre of property with a playset including swings, a rock wall, fort and a slide—some of our kids most favorite activities. We don't have any pets at the moment, but a fish is in our near future (by request!) and we would love to rescue a dog one day.

Aubrey,

OUR SON,
Zachary,
AGE 4

She's a tutu-wearing, Disney Princess loving, fearless and independent frog catcher. She has a never-ending sense of adventure and confidence and LOVES babies. She plays with her baby dolls constantly, insists on feeding her cousins bottles, and would be the most excited and nurturing big sister. She loves animals, ballet, tap dancing, craft activities and conquering the biggest slides on the playground.

He's caring, funny and a walking superhero dictionary—seriously superhero OBSESSED. He's curious to learn about how everything works and loves tractors, gummy worms, holidays and his little cousins. He is more cautious and can take some time to warm up to new people and experiences but is so loving and considerate of others especially his cousins. We consider him our resident family cuddle bug.

and get to experience them all – from jumping in the leaves to building snowmen to planting and harvesting a large vegetable garden to running through the sprinkler and enjoying our fire pit in the summertime.

In the current environment, Walter and Sara both work from home and we are fortunate to have all family meals together, we plan to work from home as much as possible in the future.

Our life and home are centered around being together and being there for all of the “little” and big moments in our kids’ lives.

OUR Loved Ones

WE ARE BLESSED WITH A LOCAL EXTENDED FAMILY FOR SARA AND AN EQUALY CLOSE EXTENDED FAMILY FOR WALTER (WITHIN 2 HOURS).

Our family has been unconditionally loving and encouraging for every step of our lives. They are our

biggest supporters and our siblings are our best friends. Our kids already have 5 cousins (within 4 years) and see them often as well as Facetime almost every day, already building lifelong bonds. Our families are so close, with many important moments shared together. Our grandparents, aunts and uncles are up for anything that puts a smile on our kids' faces, like tutu parties with Pop (Walter's dad) or dressing up for Halloween (as assigned of course). We also share many forever friends we made together in college. Almost 15 years later, it's amazing to watch our kids bond and our friendships deepen as we all became parents.

Walter's family has a small farmhouse in upstate Pennsylvania with almost 100 acres of open land, ponds and trails for the kids to explore—it is a wonderful get away for a weekend to connect with family and decompress, getting some time with nature. On long weekends, our kids love to climb the hay bales, ride the tractor with "Pop" and catch frogs with their cousins.

Sara's family is close by with a pool for hot summer days and owns a few ice cream stores within driving distance which make for fun summer nights with grandparents. Sara's parents also have a vacation home in the Florida Keys. Our tradition is to take our kids every year at New Years for a week of quality family time including boating, marine nature exploring, beach time and swimming. We also take regular vacations to the Jersey shore and Disney World together. **Family is the most important thing to us, and our extended family could not be more excited to welcome another child.**

In Closing

We know love is what makes
a family and would be forever
grateful to welcome your child

as our own. We commit to being open and educating our child on their adoption story and celebrating and embracing their culture. If possible, we would like to keep in contact, we promise to work through this with you respectfully and honestly.

WITH LOVE,
Sara and Walter
